LangChain Docs

Get started

Install LangChain

📋 Copy page ⌄

To install the LangChain package:

```
npm   pnpm   yarn   bun

npm install langchain @langchain/core
# Requires Node.js 20+
```

LangChain provides integrations to hundreds of LLMs and thousands of other integrations. These live in independent provider packages.

```
npm   pnpm   yarn   bun

# Installing the OpenAI integration
npm install @langchain/openai
# Installing the Anthropic integration
npm install @langchain/anthropic
```

> 💡 See the **Integrations tab** for a full list of available integrations.

Now that you have LangChain installed, you can get started by following the **Quickstart guide**.
